BOURBON GUN CLUB TO OPEN NEW GROUNDS

The Bourbon Gun Club will open their new grounds in East Paris, near the North Middletown pike, on the Dan Isgrigg farm, next Wednesday afternoon. A club house, with a ten-foot front porch, has been built for the convenience of shooters and spectators. The club house, trap house, shooting stands, benches, etc., have been treated with a fresh coat of paint, which, with the beautiful grounds and surroundings all go to make a wonderfully attractive gun club grounds.

One will have to see them to appreciate how nicely we have fixed up our new quarters. Traps will be open every other Wednesday afternoon, starting with next Wednesday, April 19. Shooting starts promptly at one o'clock, so come early and get your share of this alluring sport. Some kind of nice trophy donated by the different business firms of Paris will be contested for at each shoot. The first trophy to be shot for is to be donated by the Cahal barber shop, which will be \$10.00 in trade. Here is a chance for some shooter to clean up in more ways than one. Shooters and visitors will be always welcome.

GRAND MASTER JANUARY ISSUES PROCLAMATION TO I. O. O. F.

Odd Fellows all over the country, as well as those in Kentucky, are making plans for the celebration of the one hundred and third anniversary of the founding of the order on April 26.

Anniversary proclamations by Grand Master E. B. January, of Paris, have been sent to all the lodges in the State by Grand Secretary R. G. Elliott, which is as follows:

"To the Subordinate Lodges of Kentucky,

"Dear Brothers: In accordance with the proclamation of Lucien J. Eastin, Grand Sire, and in compliance with the laws of the Order, I, E. B. In what more appropriate way could your lodge celebrate the anniversary of our order than by initiating a large class of candidates, so that the magnificent teaching of fraternity as practiced by our order should be implanted in the minds of a large number of new members?

"The anniversary ceremony can be procured from R. E. Elliott, Grand Secretary, Lexington, Ky., price 75 cents per copy.

"Done at the city of Paris, Ky., this twenty-ninth day of March, Anno Domini, nineteen hundred and twenty-two.

Grand Master.

"Attest:
R. G. ELLIOTT,
Grand Secretary."

PROF. PORTER'S ASSAILANT RELEASED ON BOND

The jury trying Charles Cohen for shooting and wounding Joseph W. Porter, in Lexington, last November was discharged at the close of the morning sessions of court Tuesday afternoon after having deliberated on the case for twenty-five hours without reaching a verdict. Cohen was released on \$5,000 bond for his appearance at the opening of the next term of court.

One of the most noteworthy features in connection with Tanlac is the large number of men and women who have reported an astonishingly rapid increase in weight as a result of its use. (adv)

ORGANIZATION OF COUNTRY CLUB EFFECTED

At a meeting of promoters and stockholders of the Bourbon Country Club, held at the court house, Buckner Woodford, was elected president, Catesby Spears, vice-president, and Clarence K. Thomas, secretary-treasurer, with the following Board of Directors: Sam Clay, Catesby Spears, Thos. Holt, Frank P. Kiser, Clarence K. Thomas, Buckner Woodford, Ayelette Buckner and John F. Davis. These were chosen as temporary officials at a previous meeting, and at the last meeting the selection was made permanent.

Dwight Pendleton, expert, from Winchester, was in Paris, Tuesday and Wednesday, aiding in laying out the grounds for the golf course. The committee on grounds, club house and finance will be chosen at a later meeting.

REAL ESTATE DEALS

Harris, Speakes & Harris, Paris realtors, sold Wednesday for J. W. Brown, his frame cottage, located on Nineteenth street, to J. H. Parker, for \$2,550. Possession will be given immediately.

Havana, Cuba, has a new hotel that will accommodate 1,000 guests.

THE CHALLENGE OF CIVIC CLEANLINESS

Paris has been undergoing her annual housecleaning. By Saturday night she should shine like Spotless Town. Not a guilty tin can must escape. Dirt, rubbish and the accumulated riffraff of backyard and alley are doomed to extinction, if every citizen does his duty.

Paris people need little urging to perform this duty. The reputation of being the cleanest city of its size in the country is a distinction jealously guarded by Paris. Indeed, except for the marshalling of forces for a concentrated drive, the Clean-Up and Paint-Up campaign is hardly necessary here. The average home owner in this city is intensely interested in making his property attractive and the acknowledged beauty of the residential districts is a tribute to his unremitting toil and care.

We like to believe that Paris people keep their houses and lawns in order from an inherent love of the beautiful and not merely because they wish to impress the tourist. However, it is a fact that visitors to the city are greatly smitten with its cleanliness and carry away with them lasting thoughts of civic comeliness. Such neatness reflects the personal characteristics of the inhabitants. For this reason our Clean-Up and Paint-Up campaign each year serves the double purpose of satisfying our own aesthetic sensibilities and preparing for the critical scrutiny of the stranger enjoying our hospitality. Paris welcomes the inspection, no matter how searching.

The success of the Clean-Up and Paint-Up campaign, in its entirety, lies in the wholehearted manner in which the community itself adopts its various provisions. The application of paint and varnish here and there, the delving into forgotten corners with spade and hoe, the liberal use of rake and broom certainly produce wonderful results. Stovenciness is to be tolerated no more in civic appearance than in personal dress. The rundown, unkempt, unsightly town must always lag in the march of progress. Pride in one's city is deeply implanted in the human breast and humiliated indeed is the man who has to apologize for the place in which he lives.

While the household, however, is busily engaged in the individual and neighborhood assault upon all that is unclean and unsightly, let the city authorities continue the co-operation shown by granting water rent free for thrift gardens. Let them also enforce the ordinance regarding weeds on vacant lots and endeavor to compel absentee owners to mitigate the dandelion nuisance, which often overwhelms a whole block from one uncared-for piece of property.

The Clean-Up and Paint-Up campaign is a challenge to civic pride, a challenge that Paris has never yet evaded.

MRS. STEWART DECLARES ILLITERACY IS DOOMED

"Illiteracy is on the run and the Federal census of 1930 should not record one American as unable to read and write," Mrs. Cora Stewart, of Frankfort, chairman of the illiteracy commission of the National Educational Association, said in an address at the Illiteracy Conference of Southern States, in Birmingham, Ala.

She asserts that the 100,000,000 educated people in the United States "could redeem the 5,000,000 illiterates before Christmas if they would."

"The public school teachers of America are on the war path," she said, "and will never retreat until they have swept the foe—adult illiteracy—from the land."

BASE BALL

Capt. Arthur B. Hancock, Jr., is still of the opinion the Paris Pirates can take the measure of any team of their age in Central Kentucky. The Pirates some time ago defeated the strong North Middletown High School team by the score of 17 to 4, and later took the Paris High School team into camp to the tune of 16 to 5. To-morrow afternoon, at 2:30 o'clock, the Pirates will take on the North Middletown team for a return game, to be played on Hancock field, on the Winchester pike. Both teams are going strong and looking for a place in which to lift scalps. The Pirates are ready to add another victory to their already notable achievements.

GOODMAN GETS ANOTHER VERDICT

In the second trial of the damage suit of F. F. Goodman (Goody) of Paris, against the Louisville & Nashville, which was tried in the Kenton Circuit Court, the jury returned a compromise verdict, awarding Goodman the sum of \$2,582.

The case on its first trial in the Kenton Court, resulted in a verdict for Goodman in the sum of \$7,500, for damages alleged to have been sustained while in the employ of the L. & N. at Covington. The railroad company applied for a new hearing in the case, which was granted. At the second trial of the case several of the jurors were for returning a verdict for \$5,000, but a compromise was finally made on \$2,582.

Mr. Goodman is at present a resident of Paris, where he is player-manager of the Paris team in the Blue Gras League, recently organized.

BUSINESS CHANGES

Richard Tate has resigned his position as clerk at Stout's Cafe, and will engage in farming as soon as he can make suitable arrangements.

Mrs. Metta G. O'Neil, formerly of Paris, and Miss Lucy Rice, who have been members of the sales force of Mitchell, Baker & Smith, in Lexington, have bought out the grocery business of W. L. Drummy, at Kentucky and Central avenue, in that city, which they will conduct in the future.

Bryan & Patrick, of North Middletown, have sold their garage business to King Bros., of Winchester, who will conduct the business in the future. Mr. and Mrs. Pierce King will move to North Middletown as soon as suitable quarters can be secured. The garage is one of the most complete in that section of the county, and has all the latest improvements.

FATTY ARBUCKLE ACQUITTED AT THIRD TRIAL

A verdict of acquittal was returned by a jury Wednesday in the third trial of Roscoe C. (Fatty) Arbuckle on a manslaughter charge growing out of the death of Miss Virginia Rappe, motion picture actress. The jury was out six minutes.

The defendant was deeply affected. He received the verdict with a great sigh of relief. There was no demonstration, the court having warned against it. Mrs. Minta Durfee Arbuckle, the defendant's wife, cried quietly. Both she and Arbuckle shook hands with the jurors.

The quick return of the jury was a surprise. Edward Brown, whose presence on the jury was objected to by the prosecution, was foreman. There was a slight delay when the jury returned due to the absence of the district attorney.

FREDERICK WALLIS LEADS IN POLITICAL FIGHT

The Democratic party has a great opportunity before it in New York State this fall, and plans are being initiated for a comprehensive and aggressive Statewide campaign, according to a letter sent out by Frederick A. Wallis, who is chairman of the Finance Committee of the Democratic State Committee.

Copies of the letter have been received from Mr. Wallis, who is a frequent visitor here. Mrs. Wallis was formerly Miss Nanine Clay, daughter of Mr. and Mrs. Thomas Henry Clay, of Paris.

Mr. Wallis was making an appeal for funds to prosecute the campaign and the letter has been producing result, he has told Paris friends. New York State is not only to elect a United States Senator and Congressmen and Governor, but the entire State Legislature and other State officers.

Mr. Wallis, who is deputy police commissioner of New York City and formerly was United States Commissioner of Immigration, is known as "the man who does things." He was chairman of the 1921 campaign committee of Mayor John F. Hyland, who was elected by 418,000 plurality. He is a director of the Kentucky Society of New York.

EDITORIAL FLINGS

To be properly equipped this year, the Paris clothiers tell us, the Paris man must have three straw hats—for business, sport and evening dress. Still, many of us will try to worry along with two—last year's until the summer bargain sales come on, then a new one for the remainder of the season.

A Paris man whose troubles started when he tried to tie a four-in-hand tie, is reported to have worn his shirt, collar and tie for three nights when his wife was away from home to avoid having to tie it in the morning. When Friend Wife came home and heard of it she remarked, "When you are a little older I suppose you will be wearing your shoes to bed so you won't have to lace them up in the morning." But hubby indignantly drew the line at the curtain lecture right there.

Some time ago a Bourbon county farmer advertised in THE NEWS for a colored man to help about the place. A few days after a colored man came in Grant Owsley's restaurant and asked permission to use the telephone. Murray Higgins told him to go ahead. After consulting the directory a few moments the colored man called up Mr. Farmer, and said, "Is dat Mr. C—? Well, suh, I seed in THE NEWS de udder day whah you wanted a good cullud man. Is you still wantin one? No? Den de man yuse got is puffedly satisfactory. Glad yuse got a good man fur de job." Murray, knowing his man, said: "Too bad, Sam, that the place is filled." "Oh, no, Mr. Higgins, no suh. I se de nigger whut got dat job, but I se jest wantin' to check up on Mr. C—."

A FEW FACTS ABOUT THE SOUTH

(Manufacturers Record)
The South is the nation's greatest asset. It has about one-third of the total area and population of the United States. It has about three-fifths of the coast line of the country and produces practically all of the cotton raised in the United States and about 60 per cent. of the world's supply. The South produces about three-fourths of the world's sulphur, about 85 per cent. of the world's naval stores and the bulk of the world's phosphates.

The South has about three-fourths of the cooking coal area of the country, and its total coal area is twice as great as that of all Europe, and five times as great as all of Europe excluding Russia. The extent of its iron ores is in keeping with the magnitude of its coal supply.

The South has water-power resources sufficient to develop approximately 9,000,000 horse-power. In addition to its enormous agricultural output, the South has raw materials for the widest diversity of manufacturing. The South is now producing:

ARBOR DAY TO BE OBSERVED HERE

The golden anniversary of Arbor Day, Saturday, April 22, will be fittingly observed by the Paris and Bourbon county schools, according to County School Superintendent J. M. McVey and Superintendent of City Schools Lee Kirkpatrick.

In the proclamation issued by President Harding, heads of public instruction and commercial organizations are urged "to unite in thought and action for the preservation of our common heritage by planning such educational and instructive exercises as shall bring before the people the disastrous effects of the present waste by forest fires and the need of individual and collective efforts to conserve the forests and increase our tree growth for ornament and use."

The proclamation declared that protection and perpetuation of American forests was vital to continued industrial welfare and national strength and pointed out that observance of the day especially set apart and consecrated for tree planting and known as "Arbor Day" first was instituted in the State of Nebraska in April, 1872.

PREAKNESS MAY BE RICHEST TURF CLASSIC

The Preakness Stake may be America's richest turf classic. Announcement was made by William T. Riggs, secretary of the Maryland Jockey Club, that it has been decided to make the added money in Pimlico's greatest event \$50,000, of which \$40,000 and the starting fees will go to the winner.

Whether the Preakness will be richer than the Kentucky Derby to the winner will depend on the number of thoroughbreds that face the barrier. The amount of money to the second, third and fourth horses in the Preakness will be the same as in the Derby.

Possibly.

VERIFY IT

The Proof Is In Paris, Almost At Your Door

The public statement of a Paris citizen is in itself strong proof for Paris people, but confirmation strengthens the evidence.

Here is a Paris citizen who testified years ago that Doan's Kidney Pills relieved weak kidneys and now states the result was permanent. Can any sufferer from kidney ills ask better proof? You can investigate. The case is right at home.

Mrs. A. L. Burley, 329. Eighth Street, Paris, says: "I have used Doan's Kidney Pills a few times and from the benefit obtained I can say they are a good and reliable remedy. Whenever my kidneys have acted irregularly or my back had been weak and lame I have always found a box or so of Doan's Kidney Pills which I get at Arderly's Drug Store to relieve the complaint quickly."

The above statement was given November 10, 1916, and on November 12, 1920, Mrs. Burley said: "I haven't changed my opinion of Doan's Kidney Pills made for me at that time has been permanent."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Burley had. Foster-Milburn Co., Mrs. Buffalo, N. Y.

BUSY PEOPLE SHOULD READ NEWSPAPER GUIDE

The newspaper that carries a good line of advertisements is to the shopper what the time table is to the traveler and the published guide is to the tourist. Busy people will study these advertisements in the home or in the office as they do a time table, and before they start out shopping they have determined where they are going.

The newcomer or the visitor in the city finds the advertising columns of a newspaper a reliable guide to follow, just as he finds the printed guide for tourists to points of interest a matter of interest and time-saving. In fact, the stores, the mills and the theatres are points of interest to all tourists, and the non-advertiser puts himself outside the pale of interest so far as strangers are concerned.

MADE FROM THE MILDTEST CLEANSERS

Palmolive contains Palm and Olive oils. These oils were the cosmetic cleansers used by Cleopatra and kept her skin fresh, smooth and youthful.

Today their scientific combination in Palmolive produces the most perfect of all facial cleansers. Science has discovered nothing finer, milder or more beneficial for the toilet than Palm and Olive oils.

Artful applications of rouge and powder may lend your skin the appearance of smooth freshness. But unless you cleanse the pores thoroughly every day with soap and water, blackheads, pimples and other blemishes are sure to result.

Some persons imagine that soap is too harsh for the face. They should try Palmolive. Its mild, smooth creamy lather, when massaged into the skin cleanses without the slightest irritation.

You can buy Palmolive Soap at all first class groceries and drug stores.

THE MESSAGE OF EASTER

As the people of the earth come again unto Easter, with its message of eternal life, it is no stretch of imagination to believe that from time to time in the remote past, long before the loving fatherhood of God was revealed by His Son, a similar assurance was given to mankind. As the first man, whether his name may have been Adam or something else, looked upon his wife and children he must have asked the question propounded in a later age by Job, "If a man die shall he live again?" And there must have come to him some comforting thought to save him from despair.

In a later generation such consolation came to David when he lost his little lad, for whom he had fasted and wept: "But now he is dead, wherefore should I fast? Can I bring him back again? I shall go to him, but he shall not return to me." And so it was with Job who, after passing through dire misfortunes, physical affliction and mental anguish, exclaimed: "For I know

that my Redeemer liveth, and that He shall stand at the latter day upon the earth! And though after my skin worms destroy this body, yet in my flesh shall I see God. Whom I shall see for myself, and mine eyes shall behold." So it was with Paul, the great apostle of the resurrection, when he triumphantly declared, "O death, where is thy sting? O grave, where is thy victory?"

And now, in the fullness of time, mankind has the Easter message in all its completeness, as given to the world by the Redeemer and His Apostles. It is a message that answers "Yes" to the question that came down through the ages, "If a man die shall he live again?" It is the message that brings to all "We shall meet again." It is a message of hope and inspiration and comfort to all the world.

Tuning forks are among the most important of acoustical instruments. They were invented in 1711 by John Shore, Handel's trumpeter, and since then have been invaluable to makers of instruments and to musicians also.

PRINTING TELEPHONE DIRECTORIES BIG JOB

Under the caption "Telephone Directory Mathematics" the Boston News Bureau says:

"J. L. Spellman, publicity manager of the Illinois Bell Telephone, is something of a lightning calculator, and he has issued the following:

"A Chicago printing house, which publishes telephone directories for many cities, announces that in 1920 it printed 6,699,000 telephone directories, using 18,850,420 pounds of paper, which required 459 freight cars to transport it from the mills. These directories if placed end to end would reach from Chicago to Jacksonville, Fla., and the paper stock, if made into a strip one foot wide, would reach from the earth to the moon and more than half-way back. To set type contained in the listings of these directories would occupy one man's time on a linotype machine for nearly forty years, and if the directories were printed on an ordinary cylinder press, running eight hours per day, it would require seventy-five years to complete the run."

ENGLISH DENSITY

Lord Northcliff, whose recent voyage to America was delayed by fog, told a fog story at a dinner in New York.

"Of course," he began, "you've heard the fog story about the fog which was so thick that the boys sat on the fences and heaved fog balls at the passer-by? I gave a prize of a guinea for that story when I started Answers, my penny weekly, in my youth.

"But another fog story that won an Answer prize of three guineas was about a London merchant who received one foggy morning a telephone message from his clerk.

"I'm sorry, sir," the clerk said, "but I can't come down to the office this morning on account of the fog. I have not yet arrived home yesterday."

THE SEVERE CRITIC

The late Edgar Saltus was sometimes prevailed on by New York editors to write dramatic criticisms. His criticisms were always severe and amusing.

Mr. Saltus one evening went to criticize a very popular actor in "Hamlet." He did not like the actor, and his criticism consisted of the words:

"Mr. Blank played 'Hamlet' last night at the Lyric. He played it from 8:15 till 11:40."

SOME DEALERS THINK WAR HAS STARTED

It often happens when PIGGLY WIGGLY opens in a city that the retailers become panic-stricken and attempt to drive PIGGLY WIGGLY out by selling some goods at a loss

So far as PIGGLY WIGGLY is concerned, there is no PRICE WAR. Local dealers are not used to seeing goods sold so close—and PIGGLY WIGGLY is.

PIGGLY WIGGLY is at peace with all the world, including customers and competitors, and will continue in this same good humor, making lower prices than other dealers can make and still make a profit. The reason for our low prices is no secret. Our purchasing power, scientific management and low overhead expense is the talk of the merchandising world.

PIGGLY WIGGLY has confidence in Paris and the State of Kentucky and believes that Paris will show a tremendous increase in prosperity and population in the next few years; that there will be more grocery stores in Paris than there are to-day and that they will be just as prosperous or more so; that the stores giving service, credit and delivery will continue doing business and getting well paid for it.

PIGGLY WIGGLY does not sell SERVICE, CREDIT NOR DELIVERY, PIGGLY WIGGLY does not have any special sales or combination sales. The consuming public has been praying for some system that would lower the cost of foodstuffs by eliminating waste and unnecessary expense. PIGGLY WIGGLY is the answer to their prayers.

What were you paying for your groceries before PIGGLY WIGGLY came to Paris?

What would you be paying for groceries if PIGGLY WIGGLY were not in Paris?

FISHERMAN MAKES RECORD CATCH FOR SEASON.

With the advent of the spring fishing season, despite the unfavorable weather, many fishermen have been having good sport with the finny tribe in the streams and ponds of Bourbon county. Several good catches have been made.

James Merringer, of Paris, so far, holds the record for the largest bass caught with hook and line. While fishing near the dam at the Paris Milling Co.'s plant, Tuesday, Mr. Merringer struck a big fish, which he succeeded in landing after a hard struggle. The fish, a small mouth black bass, weighed five pounds and three ounces, shortly after being taken from the water. James Carr, of Paris, while fishing in the same place a few days ago, caught a small-mouth bass weighing two and one-quarter pounds.

GIRL WINS HERO MEDAL

Sunday morning at the closing exercises of the Sunday School of the First Christian church, Winchester, Miss Nell Bush, daughter of Shields Bush, and student of Margaret College, Versailles, was awarded a hero medal for rescue work.

The program was introduced with an address by C. E. Ackley, superintendent of public schools. Mr. Ackley said that enthusiasm for an heroic act was always spontaneous, because every decision and act of the hero's life led up to it. Professor Ackley's address was followed by Mayor George E. Tomlinson, who presented Miss Bush with the medal.

Miss Bush, with a Sunday school picnic crowd of the First Christian church, was at Oil Springs, and seeing Carl Dukate, a small boy, sinking beyond his depth, sprang into the water, caught him by the hair and swimming to shore, rendered first aid and revived him.

The medal was awarded by the Ralston Purina Hero Commission. Miss Bush is a niece of Mrs. Jas. McClure and Mrs. White Varden, of Paris, where she has been a frequent visitor, and is a classmate of Misses Edith Barlow and Rebecca Purnell, of Paris, at Margaret College, Versailles.

Confederate veterans were the honorary pall-bearers at the funeral of Alf Whiting, a former negro slave, who died at Ronsey, Virginia. Whiting, one of the few surviving negroes who served in the Confederate army, attended every Confederate reunion and selected his own pall-bearers. He was attached to company K, 13th Virginia infantry, was captured, refused to take the oath of allegiance to the Federal Government and was finally released on bond of \$6,000, with the understanding that he would not return to Virginia during the period of the war.

PAINS SO BAD WOULD GO TO BED

Two Women Tell How Lydia E. Pinkham's Vegetable Compound Stopped Their Suffering

Iron Mountain, Mich.—"I had terrible pains every month and at times had to go to bed on account of them. I saw your advertisement and took Lydia E. Pinkham's Vegetable Compound with very good results. I can work all day long now at my sick time. You may use these facts as a testimonial and I am recommending the Vegetable Compound to my friends."

—Mrs. A. H. GARLAND, 218 E. Brown St., Iron Mountain, Michigan.
Xenia, Ohio.—"Every month I had such pains in my back and lower part of my abdomen that I could not lie quietly in bed. I suffered for about five years that way and I was not regular either. I read an advertisement of what Lydia E. Pinkham's Vegetable Compound had done for other women, so I decided to try it. It surely has helped me a lot, as I have no pains now and am regular and feeling fine."

—Mrs. MARY DALE, Route 7, Xenia, Ohio.
Lydia E. Pinkham's Vegetable Compound is a medicine for women's ailments. It is especially adapted to relieve women. If you suffer as did Mrs. Garland or Mrs. Dale, you should give this well-known medicine a thorough trial.

KENTUCKY CROP REPORT FOR APRIL, 1922

The condition of wheat and rye in all the principal farming sections of Kentucky is unusually good; there are 10 per cent more brood sows in the State than there were this time last year; and although the labor supply still is 5 per cent below normal the demand for hired farm labor is 10 per cent below normal, according to the April crop and livestock report for Kentucky issued by the United States Bureau of Markets and Crop Estimates in co-operation with State Commissioner of Agriculture W. C. Hanna. The condition of wheat in Kentucky, April 1 was 94 per cent of normal compared to 95 per cent April 1, 1921, and an average of 85 per cent April 1 for the last 10 years. Rye conditions in this State was 93 per cent April 1, compared to 95 per cent April 1 last year and an average of 88 per cent April 1 for the last 10 years.

The acreage of wheat sowed in Kentucky last fall was approximately 670,000 acres compared to 657,000 acres sowed in 1920; while rye (including only that for grain) was 19,000 acres last fall compared to 18,000 acres sowed for grain in 1920. The mild weather this winter and spring has been very favorable for small grains in all parts of the State, except a little drowned out on low or flat land.

Farm labor is 4 per cent more plentiful than on April 1, 1921, but still only 95 per cent of a normal supply, as many farmers can not afford hire labor, and farmers report they have cut their demands for labor 8 per cent below last year's demands and 10 per cent below normal. Farmers say in their reports that this is due to the general slump in prices of farm products compared to former prices and to the prices of manufactured goods and labor.

When Will There Be A Disarmament of Dining Tables?

Suppose everybody would recognize the fact that there's no gain but much loss in keeping up hostilities with the stomach!

Suppose the ancient aggravation of improper food on indignant digestive organs should be settled with guarantees of sensible diet and tranquil digestion!

The saving would be beyond all possibility of counting.

Yet millions go on declaring war on the stomach and accepting war in return—loading up on starchy, heavy, unbalanced and highly-seasoned food at breakfast or lunch—and wondering why comfort, happiness and efficiency are out of reach.

WHAT HE NEEDED

(Wayside Tales)

When Farmer Bassett decided to send his son to college, and selected one exploiting the advantages of its physical training system, he had a plain talk with the president.

FIRST HOME OF DANIEL BOONE
ALMOST IN RUINS

Deteriorated by the elements it has withstood for 192 years, the stone house in the foothills of Exeter township, Berks county, Pa., where Daniel Boone, the Kentucky pioneer, was born, is slowly falling to ruin from lack of care. Until two years ago the house had been tenanted and the necessary repairs made, but now it is deserted, the cellar full of water, windows broken, floors decaying and the 160 acres of estate are uncared for.

The farm is situated about one and a half miles from Stonersville. The lane leading to the premises is marked by a large white rock by the Historic Society of Berks county, on which is the inscription: "One quarter mile to the birthplace of Daniel Boone, October 22, 1733."

In this connection it may be said that some authorities give the date of his birth as 1734 and 1735, and his birthplace Bucks county, Pennsylvania.

According to history Boone stayed here until he was 17 years of age, when he went to Kentucky. Tradition has it that it was nearby that he killed his first bear when he was 14 years old, and he was so proud of his achievement that he carved an inscription on a tree with his hunting knife, reading: "D. Boone killed a bear near here."

The house has four rooms on the first floor, six on the second and an attic. The original Boone dwelling had two rooms on the first floor and three on the second, but an addition similar to the original in every respect was made after the family migrated.

One of the original rooms contains a large fireplace made of stones and still in good condition. Here on the mantel place, according to tradition, it was, that young Boone carved a notch indicating his height when he went to Kentucky, and upon his return in middle-age was interested to see how much he had grown. However, the historic notch cannot be discovered on the mantel piece.

The shutters and doors of the dwelling are hung on wrought-iron hinges and still are in good condition, but many of the windows are broken, permitting rain and snow to enter and causing the floor to decay.

Efforts have been made to have the State purchase the house where the pioneer was born, and still more recently, there have been reports that the Historical Society of Clark county, Ky., has interested itself in the possible purchase of the farm for historical purposes. The farm is valued at \$15,000 according to late estimates.

EVANGELIST SAYS "FLAPPERS"
WILL CAUSE NEXT WAR!

"The cause of the next war—the flapper—struts up Fifth avenue today, and her sister out on Main street apes her."

This was the opinion expressed by the Rev. Dr. Frank J. Norris, "Texas Tornado," who has come to New York to save the city by a series of revival meetings.

"The flapper will bring about this country's downfall just as surely as Delilah caused Sampson's," said Dr. Norris. "Every great war has been traced to the depravity of women, and they never were as bad as they are to-day."

"When a woman shows her knees, you can see her finish, and that of the nation as well."

"Girls think more of their eyelashes and 'nude' hosiery than they do of decency; home life is broken up; respectful law goes with it; wholesale iniquity follows; (then—war."

"We cursed the Kaiser for starting the last war; but we'll 'pet' the cause of the next."

"Our statesmen are scrapping the battleships; they ought to be slapping the flappers."

"The modern girl is 100 times worse than the girl of the last century, and the country girl is just as bad as her city cousin. Once upon a time country girls were pure, but gasoline spoiled that."

"We have closed up our red light districts and put them on rubber tires."

"Women, smoking, are indecent. The spark from a woman's cigarette is going to touch off a conflagration that will destroy this country within 50 years."

"Jezebel was the worst woman in the world. She was the first queen of the shifters. The last thing she did before she died was to paint her face, and then the dogs ate her."

Nicknamed After Death.

Certain kings of England are known in history by various nicknames, but it is interesting to note that these names did not appear until a number of years after their death. Edmund, for example, died in 1016, and is first spoken of as Ironside in 1297. Edward I appears in an almost contemporary chronicle as "ell oo les lunges jamies"—he with the long legs—and did not become Longshanks till about 1600. Richard III is first called Crookback by Shakespeare in the third part of the play Henry VI.

TAKE GUDE'S
PEPTO-MANGAN

It Is the Safe and Reliable Tonic
Used By Physicians For
30 Years

There are "new styles" even in medicines. A new "fad" comes, is popular for a while, and then fades out of public view. A remedy that has stood the test for thirty years must have remarkable merit and cannot be called a "fad." Such is Gude's Pepto-Mangan, originated by Dr. A. Gude over a quarter century ago, which has helped many thousands of people back to good health by improving the blood. Pepto-Mangan is an iron tonic. It contains iron in a special form easily absorbed by the system. It puts color into the lips and cheeks and improves the entire body by improving and enriching the blood. It is sold by druggists in both liquid and tablet form. "If you want to be well and strong and look fine and healthy, take Gude's Pepto-Mangan." (adv)

IN POLITICS

A Franklin man was a candidate for office and, while electioneering called each day on the boys in one of the newspaper offices. He was usually greeted before the election with the question:

"Well, Bill, how's everything to-day?"

A few days before the election Bill was feeling rather self-satisfied, and said confidently, in answer to the usual greeting:

"Well, boys, it beats the devil how everybody's for me."

The day following the election found Bill overwhelmingly defeated, but, nevertheless he called on the boys as usual. It was embarrassing and only one old printer had the courage to say:

"Well, Bill, how goes it?"
Bill braced up and exclaimed:
"Boys, it beats the devil how they lie."

Positively Devastating.

OTHERS NOTE WORKING OF THE
BURLEY POOL

That the Burley Tobacco Growers' Co-operative Association success has caused the growers of the bright leaf in other States now in the Burley Association to inquire into the workings of the organization, was demonstrated when R. R. Patterson, of Richmond, Va., and C. B. Cheatman, of Henderson, N. C., called on President James C. Stone. These men are in charge of the leaf department of the new Tri-State Tobacco Growers' Co-operative Association, composed of leaf men of Virginia, North Carolina and South Carolina. This organization already has 68,000 members and controls 370,000,000 pounds of bright leaf tobacco this year. The visitors made a complete investigation of the workings of the Burley Association, which included a visit to Director of Warehouses Ralph M. Barker, from whom they learned the method how warehouses were obtained for the Association. Virgil Chapman, who has been in the western part of the State assisting the farmers of the dark belt in organizing, has returned home, and said, "Although we have not put out the contracts, the weed growers in that part are awaiting the opportunity to attach their signatures."

Why the \$10.90 USCO is better
than just a \$10.00 tire

On November 10, 1921, the 30 x 3 1/2 "USCO" was marked to sell for \$10.90.

This odd and closely figured price was the lowest quotation ever made on any tire of known standards.

A genuine pioneering step by the makers of U. S. Tires.

Now comes a lot of different \$10.90 tires being rushed into the market. "Special" tires. "New" trends.

Unfamiliar to look at—with perhaps an atmosphere of having been made to meet the price.

But the "USCO" still occupies a place by itself. A good old

standby on millions of cars for years. Better than it ever was.

Still putting the emphasis on honest quality, even if it does sell for only ten dollars and ninety cents.

The \$10.90 tire with the record of a proven product.

The tire that people still buy for the dignity of its quality regardless of the low amount they pay.

During his residence in Paris he was engaged in the implement business, and was for many years connected with different implements houses in this city as salesman and machinist. Later he was traveling salesman for the International Harvester Machine Co., and spent the most of his time on the road. She was a fine, cultured, intelligent old lady, just past her 78th birthday and a devout member of the Christian church almost since childhood."

"Mrs. Clarke was Miss Sue Tibbs before her marriage, and a sister of the distinguished Christian preacher, Billy T. Tibbs. She was born and reared in and around Covington, Ky., but lived the greater portion of her life in Fleming county. She

FIRST "POULTRY DAY" AT COLLEGE OF AGRICULTURE

Bourbon county farmers and their wives who are interested in improving their poultry flocks will be among those who will have a special invitation to attend the first "Poultry Day" to be held on the College of Agriculture farm, Lexington, April 26, it has been announced. While the program for the event has been designed for farmers in all parts of the State, the college will make a special effort to have a large delegation from Bourbon county attend. The county is close enough to give farmers living in it a good opportunity to obtain new pointers on the care and management of their flocks, it is believed.

Following a description of the farm by J. H. Martin, in charge of the college poultry work, those who come for the day will be shown the

breeding pens where the mating of six different breeds will be explained, the brooders where 1,500 chicks of different ages are being reared under coal and oil burning brooders and the large laying house of the farm with 300 hens.

Addresses and discussions on a variety of poultry problems by Dean Thos. P. Cooper, of the college, J. R. Smyth, extension poultryman and Mr. Martin will help round out the day's activities.
